

Artificial Intelligence Platform Task Force

- **Highlights from this Meeting:**

- Met on Tuesday for 4½ hours
- *“Towards an OMG AI Ontology”* – Dr. Karl Gosejacob
 - How AI-related patents suffer from vague definition of concepts
- *“A Conversation: AI Law and Enforcement”* – Clayton Pummill
- *“European Union Observatory for ICT Standardisation”* – Ray Walshe
 - €€€ available for EU-based people to participate in SDOs
- Report on a recent IEEE Computer Society AI Standards Committee kickoff meeting – Keith Patterson
- Reviewed (lack of) progress of other items from previous meetings
- Roadmap discussion

Artificial Intelligence Platform Task Force

- **Deliverables since the last Meeting**
 - No RFIs, RFCs or RFPs yet

Number	Title	Author
ai/21-03-01	Notes from the AI PTF meeting on 8 Dec 2020	Claude Baudoin
ai/21-03-02	Towards an OMG AI Ontology	Dr. Karl Gosejacob
ai/21-03-03	A Conversation on AI Law and Enforcement	Clayton Pummill
ai/21-03-04	European Observatory for ICT Standardization	Ray Walshe

Artificial Intelligence Platform Task Force

- **Future Deliverables – unchanged**

- AI Taxonomy or Ontology
- Analysis of NIST RFI responses
- RFI with more precise questions and more international appeal than NIST's
- Very tentative:
 - RFP on a Claims-Argument-Evidence model for AI (e.g., absence of bias)
 - RFI on representing AI components in SysML
- Potential external deliverable: article in Cutter Consortium Journal

- **Liaisons: none**

- **Agenda Items for the Next Meeting**

- Wednesday 16 June
- Invite some prospective speakers to continue informing our roadmap
- Interim remote working sessions on ontology and on NIST RFI responses
